PROFESSIONAL EXPERIENCE

→ UX/UI Designer — Spindox

Milan, Italy · Oct 2022 — Present

- Designed scalable enterprise platforms and dashboard ecosystems.
- Defined UX patterns and interaction systems across digital products.
- Collaborated cross-functionally with product and engineering teams.
- Contributed to AI-assisted and mobility-oriented experiences.

Key Clients

→ Lead UX/UI Designer — VIOLA

Remote, Italy · Feb 2022 — 2025

- Led the UX/UI design of a real-time public safety platform focused on trust and accessibility.
- Designed safety-critical user journeys optimized for emergency interactions.
- Conducted user research and behavioral analysis to improve onboarding and platform usability.
- Built scalable UX systems and collaborated cross-functionally in a fast-paced startup environment.

DESIGN BACKGROUND

→ Architecture & Systems Thinking

[Politecnico di Milano](#)

Bachelor's Degree in Architecture, Milan, Italy · 2013 — 17

Built a strong foundation in spatial design, systems thinking and human-centered problem solving.

→ Visual Culture & Digital Experiences

[IADE Creative University](#)

Master's Degree in Visual Culture Design, Lisbon · 2017 — 19

Explored digital narratives, interaction systems and contemporary visual culture.

→ Startup & Product Ecosystems

[Bocconi University](#)

Pre-Startup Acceleration Program, Milan, Italy · 2023

Focused on startup validation, product strategy and scalable digital ecosystems.

→ UX & Product Design Specialization

[Talent Garden Innovation School](#)

Master's in UX/UI Design, Milan, Italy · 2022

Specialized in UX methodologies, product design processes and digital experience design.

→ International Design Perspective

[Universitat d'Alacant](#)

Erasmus+ Programme, Alicante, Spain · 2015 — 16

DESIGN EXPERTISE

Product & UX Design

Product design · Information architecture · User flows · Interaction systems · Prototyping · Design systems · Accessibility

Enterprise & Digital Ecosystems

Enterprise platforms · Dashboard ecosystems · Scalable UX patterns · Cross-functional collaboration · AI-assisted experiences

Research & Validation

UX research · User interviews · Usability testing · A/B testing

Specialized Domains

HMI / Automotive UX · Mobility experiences · Safety-critical interfaces · Conversational UX · AI-driven interactions

Design Stack

AI-assisted workflows · Design systems · Product collaboration · Prototyping

MULTILINGUAL ENVIRONMENT

Italian — Native

English — Professional proficiency (C1)

Spanish — Professional proficiency (DELE C1)

Portuguese — Working proficiency (B2)
